12 sessions per area	R3300.00

Ultrasound Cavitation

Benefits:

- Non-invasive cellulite and fat treatment
- Skin tightening
- Body firming and contouring
- Promotes blood circulation and lymphatic drainage
- Inhibits formation of localized fat
- Improves and reduces the appearance of cellulite

Treatment duration

- Depends on the area being treated
- Advisable to repeat treatment every week until expected result is achieved, or at maintenance
- Advisable to combine with other slimming modalities like Ecmia body contouring, radio frequency treatment, and laser therapy.

Downtime

- There is no downtime.
